Hi Michael - I am in a training class today without access to printer, etc. Hopefully you are making copies of these, and I can have one. See you on Tuesday.

Michele

Subject: Revised Field Tour Itinerary

Field Tour Participants,

A revised field tour itinerary. Due to afternoon meetings the Tejon Oilfield will not be visited.

A field guide has been prepared with 13 separate oilfield maps and a Southern San Joaquin oilfield index map. If the maps are downloaded to your phone along with the free app, Avenza PDF, from the App Store you will be able to track your location as we travel through in the oilfields. You may have to go into your phone settings under privacy>location services and change the PDF Maps setting to “always allow.” Because of their size, three separate emails will need to be sent. The emails will contain the maps in the order they will be visited on the tour.

-

June 21 East Side Oilfields

8:00 - 8:30 - Field trip orientation and overview of the lithology of the Southern San Joaquin Basin

8:30 -9:00 – Fruitvale Oil Field
